Getting started

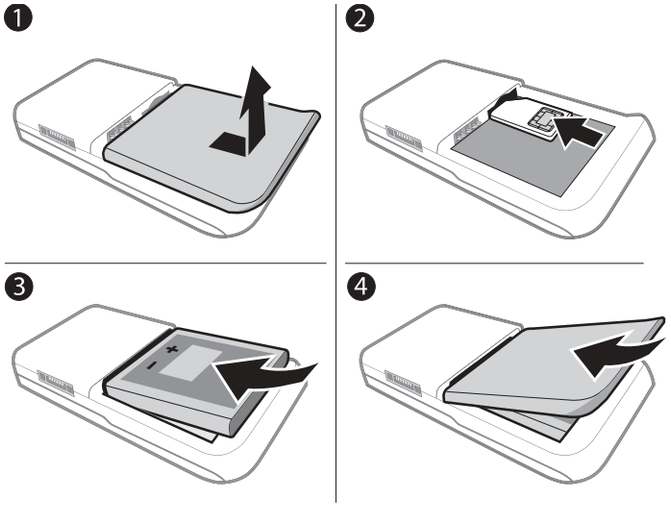
Assembly, SIM card, battery, turning on, help, calls

Assembly

Before you start using your phone, you need to insert a new SIM card and the battery.

SIM card and battery

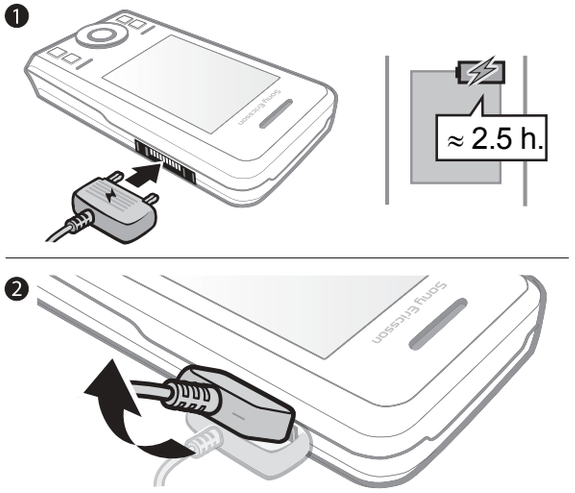
To insert SIM card and battery



1 Turn off the phone. Remove the battery cover by sliding the battery release latch down.
2 Slide the SIM card into its holder with the contacts facing up.
3 Insert the battery with the label side up and the connectors facing each other.
4 Slide the battery cover into place.

Battery

To charge the battery



Do not connect the charger unless the battery is inserted.

1 Connect the charger to the phone. Wait approximately 2.5 hours or until the battery icon indicates a full charge before removing the charger.
2 Remove the charger plug by pulling up and out.

Some functions use more battery power than others and may require more frequent recharging. If talk time or stand-by time becomes noticeably shorter, replace the battery. Only use approved batteries from Sony Ericsson ➡ *68 Battery*.

This is the Internet version of the User's guide. © Print only for private use.

Turning on the phone

Charge the phone and insert the SIM card before turning the phone on. Use the set-up wizard to prepare for use.

To turn on the phone

1 Press and hold down ⏻. The first start-up may take a few minutes.
2 Select to use the phone in:
- **Normal mode** – full functionality.
- **Flight mode** – limited functionality with network and Bluetooth™ transceivers off ➡ *7 Flight mode*.

3 Enter your SIM card PIN, if requested.
4 At first start-up, select the language.
5 Select **Yes** for the set-up wizard to help you.
6 Follow instructions to complete set-up.

SIM card

The SIM (Subscriber Identity Module) card, which you get from your network operator, contains information about your subscription. The SIM card keeps track of information such as your phone number and names and numbers in your contacts.

Save contacts on your SIM card before removing it from the phone.

PIN

You may need the PIN (Personal Identity Number) for your SIM card to start phone services. When entering the PIN, each digit appears as *, unless it starts with the digits of an emergency number, like 112 or 911. Press C to correct mistakes.

If you enter the wrong PIN three times in a row, **PIN blocked** *appears. To unblock it, you need to enter your PUK (Personal Unblocking Key)* ➡ *60 SIM card lock.*

This is the Internet version of the User's guide. © Print only for private use.

Stand-by

After you turn your phone on and enter your PIN, the name of the network operator appears on the display. This is called stand-by.

Help in the phone

Help is available in your phone.

To use the set-up wizard

- From stand-by select **Menu** ► **Settings** ► the **General** tab ► **Setup wizard** and select an option.

Download settings

You can set up functions in your phone that use the Internet, such as Internet, picture messaging, email, and Sony Ericsson Update Service.

You can use **Settings download** if your SIM card supports the service, your phone is connected to a network, it is started in normal mode and does not already have settings.

If settings exist in your phone, you may not need more settings. If you use **Settings download***, you must agree to register the phone at Sony Ericsson. No personal data will be transferred to or processed by Sony Ericsson. Contact your network operator or service provider for more information.*

To view information about functions

- Scroll to a function and select **More** ► **Information** (if available).

To view the phone demonstration

- From stand-by select **Menu** ► **Entertainment** ► **Demo tour**.

This is the Internet version of the User's guide. © Print only for private use.

Flight mode

You can use your phone in:

- Normal mode for full functionality.
- Flight mode with limited functionality. In Flight mode, network, radio and Bluetooth transceivers are turned off to prevent disturbance to sensitive equipment. You can, for example, play music, but not make calls in an aeroplane.

Follow onboard regulations and flight crew instructions for use of electronic devices.

To view Flight mode menu options

- From stand-by select Menu ► Settings and scroll to the General tab ► Flight mode and select an option.

IMEI number

Keep a copy of your IMEI (International Mobile Equipment Identity) number in case your phone should be stolen.

To view your IMEI number

From stand-by press *#06#.

Making and receiving calls

The phone must be in normal mode.

To make and receive calls

1. Enter a phone number (with international prefix and area code if applicable).
2. Select Call.

To receive a call

- When the phone rings, open the slider or select Answer.

To end a call

- Select End call.

To activate voice dialling and record commands

1 From stand-by select Menu ▸ Settings ▸ the General tab ▸ Voice control ▸ Voice dialling ▸ Activate ▸ Yes ▸ New voice and select a contact.
2 If the contact has more than one number, use ◀ and ▶ to view the numbers. Select the number to add the voice command to. Record a voice command such as “John mobile”.
3 Follow the instructions on the screen. Wait for the tone and say the command to record. The voice command is played back to you.
4 If the recording sounds OK, select Yes. If not, select No and follow the instructions on the screen.

Caller name

You can hear the recorded contact name play when receiving a call from the contact.

To use the caller name

1 From stand-by select Menu ▸ Settings ▸ the General tab ▸ Voice control ▸ Play caller name.
2 Select an option.

To voice dial from the phone

1 From stand-by press and hold down + or −.
2 Wait for the tone and say a recorded name, for example “John mobile”. The name is played back to you and the call is connected.

To voice dial with a hands-free

- From stand-by press and hold down the hands-free key.

The magic word

You can record and use a voice command as to activate voice control without pressing any keys.

Bluetooth™ devices do not support magic word.

Choose a long, unusual word or phrase that can easily be distinguished from ordinary background speech.

To activate and record the magic word

1 From stand-by select Menu ▸ Settings ▸ the General tab ▸ Voice control ▸ Magic word ▸ Activate.
2 Follow the instructions on the screen and select Continue.
3 Wait for the tone and say the magic word.

This is the Internet version of the User's guide. © Print only for private use.

4 Select Yes to accept or No to record a new word.
5 Follow the instructions on the screen and select Continue.
6 Select where Magic Word is used.

Voice answering

When using a hands-free, you can answer or reject incoming calls with your voice.

To activate voice answering and record voice answer commands

1 From stand-by select Menu ▶ Settings ▶ the General tab ▶ Voice control ▶ Voice answer ▶ Activate.
2 Follow the instructions on the screen and select Continue. Wait for the tone and say “Answer”.
3 Select Yes to accept or No for a new recording.
4 Follow the instructions on the screen and select Continue. Wait for the tone and say “Busy”.
5 Select Yes to accept or No for a new recording.
6 Follow the instructions on the screen and select Continue, then select the environments in which voice answering is to be activated.

To answer or reject a call using voice commands

When the phone rings, say:

- “Answer” to connect the call.
- “Busy” to reject the call.

To edit contact commands

1 From stand-by select Menu ▶ Contacts and scroll to a contact.
2 Select More ▶ Edit contact.
3 Select the voice command to edit.

Diverting calls

You can divert calls, for example, to an answering service.

When the restrict call function is activated, some divert call options are not available. ➡ *27 Restrict calls.*

Divert call options

Your phone has the following options:

- Divert always – all calls.
- When busy – if a call is ongoing.
- Not reachable – if turned off or unreachable.
- No reply – if not answered in a specified time.

This is the Internet version of the User's guide. © Print only for private use.

To activate a call divert

1 From stand-by select Menu ▶ Settings ▶ the Calls tab ▶ Divert calls.
2 Select a call type, divert option, then select Activate.
3 Enter the phone number to divert your calls to.
4 Select OK.

More than one call

Handle more than one call at the same time.

Call waiting service

When this is activated, you hear a beep if you receive a second call.

To use the call waiting service

1 From stand-by select Menu ▶ Settings ▶ the Calls tab ▶ Manage calls ▶ Call waiting.
2 Select an option.

To make a second call

1 During the call, select More ▶ Hold to hold the ongoing call.
2 Enter the number and select More ▶ Call.

Receiving a second voice call

When you receive a second call, you can:

- Answer to put the ongoing call on hold.
- Busy to reject and continue with the ongoing call.
- Replace active call to answer and end the ongoing call.

Handling two voice calls

You can have calls ongoing and on hold, at the same time.

Press More to view call options:

- Switch to toggle between the two calls.
- Join calls to join the two calls.
- Transfer call to connect the two calls. You are disconnected from both calls.

Conference calls

With a conference call, you can have a joint conversation with up to five people. Your subscription may limit you to less than five people.

There may be additional charges for calls involving multiple parties, contact your network operator for more information.

This is the Internet version of the User's guide. © Print only for private use.

To join two calls into a conference call

- During the call, select More ► Join calls.

To add a new member

1 During the call, select More ► Hold to put the joined calls on hold.

2 Select an option.

Accept calls

You can choose to receive calls from certain phone numbers only. If the divert calls option When busy is activated, calls are diverted.

To add numbers to the accepted callers list

1 From stand-by select Menu ► Settings ► the Calls tab ► Manage calls ► Accept calls ► Only from list ► Edit ► Add.
2 Scroll to a contact or Groups
➡ *28 Groups*.

This is the Internet version of the User's guide. © Print only for private use.

To accept all calls

- From stand-by select Menu ▸ Settings ▸ the Calls tab ▸ Manage calls ▸ Accept calls ▸ All callers.

Restrict calls

You can restrict outgoing and incoming calls. A password from your service provider is required.

If you divert incoming calls, you cannot activate some restrict calls options.

To use a call restriction

1. From stand-by select Menu ▸ Settings ▸ the Calls tab ▸ Manage calls ▸ Restrict calls.
2. Select an option.
3. Enter your password and select OK.

Fixed dialling

The fixed dialling function allows calls to be made to numbers saved on the SIM card. The PIN2 protects the fixed numbers. Partial numbers can be saved. For example, saving 0123456 allows calls to be made to all numbers starting with 0123456.

You can still call the international emergency number, 112 or 911.

When fixed dialling is activated, you may not be allowed to view or manage any phone numbers saved on the SIM card.

To use fixed dialling

1. From stand-by select Menu ▸ Contacts.
2. Select More ▸ Options ▸ Special numbers ▸ Fixed dialling and select Activate.
3. Enter your PIN2 and select OK.
4. Select OK again to confirm.

To save a fixed number

1. From stand-by select Menu ▸ Contacts.
2. Select More ▸ Options ▸ Special numbers ▸ Fixed dialling ▸ Fixed numbers ▸ New number.
3. Enter the information and press Save.

Call time and cost

The duration of the call is shown during the call. You can check the duration of your last call, outgoing calls and the total time of your calls.

To check the call time

- From stand-by select Menu ▸ Settings the Calls tab ▸ Time & cost ▸ Call timers.

This is the Internet version of the User's guide. © Print only for private use.

Messaging

Text messaging, picture messaging, voice messaging, email, My friends

Your phone supports messaging services. Please contact your service provider about the services you can use, or for more information, visit *www.sonyericsson.com/support*.

Text messaging (SMS)

Text messages can contain simple pictures, sound effects, animations, and melodies. You can also create and use templates for your messages.

If you send a text message to a group, you will be charged for each member.

Before you start

You must have a service centre number. The number to your service centre is supplied by your service provider and stored on the SIM card. If the number is not on your SIM card when you receive it, you can enter the number yourself. If you do not have the service centre number, contact your service provider.

To enter a service centre number

1. From stand-by select Menu ► Messaging ► Settings ► Text message ► Service centre.
2. If there is no number shown, select Edit ► New ServiceCentre and enter the number, including the international "+" prefix and country/region code.
3. Select Save.

Sending text messages

Transferring music

Transfer music from your own CD, digital music library or purchase music from the Internet. Disc2Phone computer software and USB drivers

This is the Internet version of the User's guide. © Print only for private use.

are included on the CD that comes with the phone. You can use Disc2Phone to transfer music from CDs or your computer to the phone memory or a memory stick.

Before you start

The minimum operating system requirements for using Disc2Phone on your computer are:

- Windows 2000® SP4
- XP Home®
- XP Professional® SP1
- Windows Vista™

To install Disc2Phone

1. Turn on your computer and insert the CD that came with your phone or visit *www.sonyericsson.com/support*. The CD starts automatically and the installation window opens.
2. Select a language and click *OK*.
3. Click *Install Disc2Phone* and follow the instructions.

To use Disc2Phone

1. Connect the phone to a computer with the USB cable that came with your phone.
2. Select File transfer. The phone turns off and prepares to transfer files. For more information ➡ *53 Transferring files using the USB cable*.
3. **Computer:** Start/Programs/ Disc2Phone.
4. For details on transferring music, please refer to Disc2Phone Help. Click ? in the top right corner of the Disc2Phone window.
5. You can obtain CD information (artist, track, etc.) via Disc2Phone if you are connected to the Internet and extracting music from a CD.

Do not remove the USB cable from the phone or computer during transfer, as this may corrupt a Memory Stick Micro™ (M2™) or the phone memory. You cannot view the transferred files in your phone until you have removed the USB cable from the phone. For safe disconnection of the USB cable in file transfer mode, right-click the removable disk icon in Windows Explorer and select Eject.

More information about moving files to your phone is available in the *Managing files Getting started guide* available at *www.sonyericsson.com/support*.

Browsing files

Music and videos are saved and categorized in the files:

- Artists – lists songs on your phone by artist name.
- Albums – lists music files by album.

This is the Internet version of the User's guide. © Print only for private use.

- Tracks – lists all music tracks in your phone and on a memory card.
- Playlists – your own lists of music tracks.
- Online channels – lists bookmarks for streaming videos or music.

Playlists

You can create playlists to organize the files in the File manager and sort the files by artist or title. Files can be added to more than one playlist.

Deleting a playlist or a file from the playlist, does not delete the file from the memory, just the reference to it.

To create a playlist

File transfer

You can synchronize, transfer files, use the phone as modem and more using Bluetooth communication ➡ *49 Sony Ericsson PC Suite software*.

Transferring files using the USB cable

You can connect your phone to a computer, via the USB cable. You can use your phone in **File transfer** or **Phone mode**. To transfer files use **File transfer**. To synchronize files, use **Phone mode**.

File transfer

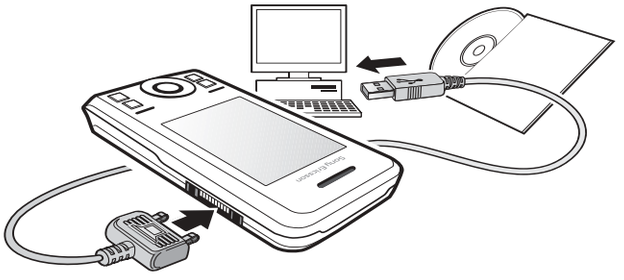
You can drag and drop files between phone and computer in Microsoft Windows Explorer.

Use Sony Disc2Phone (music transfer) or Adobe Photoshop Album Starter Edition (picture transfer/storage). These applications can only be used with file transfer mode.

Only use the USB cable that comes with the phone, and connect the USB cable directly to your computer. Do not remove the USB cable from the phone or computer during file transfer as this may corrupt the phone memory or a memory card.

To use file transfer mode

1 Connect the USB cable to the phone and the computer.



2 **Phone:** From stand-by select **Menu** ► **File transfer**. The phone shuts down.

This is the Internet version of the User's guide. © Print only for private use.

3 Wait until your phone memory and memory card, if inserted, appear as external disks in Windows Explorer. You can use:
   - Windows Explorer to drag and drop files between phone and computer.
   - Sony Disc2Phone to transfer music to your phone or memory card.
   - Adobe Photoshop Album Starter Edition, to transfer and organize your pictures on your computer.

To disconnect the USB cable safely

1 When using file transfer mode, right-click the removable disk icon in Windows Explorer and select Eject.
2 Remove the USB cable from your phone.

Phone mode

You can synchronize contacts and calendar, transfer files, use the phone as modem and more from your computer. Applications supported in phone mode include: Synchronization, File manager and Mobile Networking Wizard. For other applications, use the file transfer mode.

Your computer must have a compatible operating systems to use this feature: Windows® 2000 with SP3/SP4, Windows XP (Pro and Home) with SP1/SP2. USB drivers are installed automatically with the PC Suite software.

To use phone mode

1 **Computer:** Install the Sony Ericsson PC Suite from the CD that came with your phone.
2 **Computer:** Start PC Suite from Start/Programs/Sony Ericsson/PC Suite.
3 Connect the USB cable to the phone and the computer.
4 **Phone:** Select Phone mode.
5 **Computer:** Wait while Windows installs the required drivers.
6 **Computer:** When PC Suite has found your phone you are notified.
   All applications that you can use with your connected phone are found in the Sony Ericsson PC Suite.

Update service

You can update your phone with the latest software. You do not lose personal or phone information.

There are two ways to update your phone:

- Over the air via your phone
- Via the provided USB cable and an Internet-connected computer

The Sony Ericsson Update Service requires data access (GPRS). Your operator will provide you with a subscription with data access and price information.

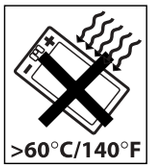
Guidelines for Safe and Efficient Use

Please read this information before using your mobile phone.

These instructions are intended for your safety. Please follow these guidelines. If the product has been subject to any of the conditions listed below or you have any doubt as to its proper function make sure you have the product checked by a certified service partner before charging or using it. Failure to do so might entail a risk of product malfunction or even a potential hazard to your health.

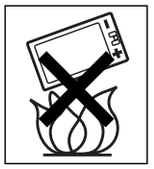
Recommendations for safe use of product (mobile phone, battery, charger and other accessories)

- Always treat your product with care and keep it in a clean and dust-free place.
- **Warning!** May explode if disposed of in fire.
- Do not expose your product to liquid or moisture or humidity.
- Do not expose your product to extremely high or low temperatures. Do not expose the battery to temperatures above +60°C (+140°F).



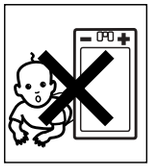
- Do not expose your product to open flames or lit tobacco products.
- Do not drop, throw or try to bend your product.
- Do not paint your product.

- Do not attempt to disassemble or modify your product. Only Sony Ericsson authorized personnel should perform service.
- Do not use your product near medical equipment without requesting permission from your treating physician or authorized medical staff.
- Do not use your product when in, or around aircraft, or areas showing the sign turn off two-way radio.



- Do not use your product in an area where a potentially explosive atmosphere exists.
- Do not place your product or install wireless equipment in the area above an air bag in your car.

CHILDREN



KEEP OUT OF CHILDREN'S REACH. DO NOT ALLOW CHILDREN TO PLAY WITH YOUR MOBILE PHONE OR ITS ACCESSORIES. THEY COULD HURT THEMSELVES OR OTHERS, OR COULD ACCIDENTALLY DAMAGE THE MOBILE PHONE OR ACCESSORY. YOUR MOBILE PHONE OR ITS ACCESSORY MAY CONTAIN SMALL PARTS THAT COULD BECOME DETACHED AND CREATE A CHOKING HAZARD.

This is the Internet version of the User's guide. © Print only for private use.

Power supply (Charger)

Connect the AC power adapter only to designated power sources as marked on the product. Make sure the cord is positioned so that it will not be subjected to damage or stress. To reduce risk of electric shock, unplug the unit from any power source before attempting to clean it. The AC power adapter must not be used outdoors or in damp areas. Never alter the cord or plug. If the plug does not fit into the outlet, have a proper outlet installed by a qualified electrician.

Use only Sony Ericsson branded original chargers intended for use with your mobile phone. Other chargers may not be designed to the same safety and performance standards.

Battery

We recommend that you fully charge the battery before you use your mobile phone for the first time. A new battery or one that has not been used for a long time could have reduced capacity the first few times it is used. The battery should only be charged in temperatures between +5°C (+41°F) and +45°C (+113°F).

Use only Sony Ericsson branded original batteries intended for use with your mobile phone. Using other batteries and chargers could be dangerous.

Talk and stand-by times depend on several different conditions such as signal strength, operating temperature, application usage patterns, features selected and voice or data transmissions when the mobile phone is being used.

Turn off your mobile phone before removing the battery. Do not put the battery into your mouth. Battery electrolytes may be toxic if swallowed. Do not let the metal contacts on the battery touch another metal object. Doing this could short-circuit and damage the battery. Use the battery for the intended purpose only.

Personal medical devices

Mobile phones may affect the operation of pacemakers and other implanted equipment. Please avoid placing the mobile phone over the pacemaker, e.g. in your breast pocket. When using the mobile phone, use it at the ear on the opposite side of the body to the pacemaker. If a minimum distance of 15 cm (6 inches) is kept between the mobile phone and the pacemaker, the risk of interference is limited. If you have any reason to suspect that interference is taking place, immediately turn off your mobile phone. Contact your cardiologist for more information.

For other medical devices, please consult your physician and the manufacturer of the device.

Driving

Please check if local laws and regulations restrict the use of mobile phones while driving or require drivers to use hands-free solutions. We recommend that you use only Sony Ericsson hands-free solutions intended for use with your product.

Please note that because of possible interference to electronic equipment, some vehicle manufacturers forbid the use of mobile phones in their vehicles unless a hands-free kit with an external antenna has been installed.

Always pay full attention to driving and pull off the road and park before making or answering a call if driving conditions so require.

Emergency calls

Mobile phones operate using radio signals, which cannot guarantee connection in all conditions. You should therefore never rely solely upon any mobile phone for essential communications (e.g. medical emergencies).

This is the Internet version of the User's guide. © Print only for private use.

Emergency calls may not be possible in all areas, on all cellular networks, or when certain network services and/or mobile phone features are in use. Check with your local service provider.

Antenna

This phone contains a built-in antenna. Use of antenna devices not marketed by Sony Ericsson specifically for this model could damage your mobile phone, reduce performance, and produce SAR levels above the established limits (see below).

Efficient use

Hold your mobile phone as you would any other phone. Do not cover the top of the phone when it is in use, as this affects call quality and may cause the phone to operate at a higher power level than needed, thus shortening talk and stand-by times.

Radio frequency (RF) exposure and Specific Absorption Rate (SAR)

Your mobile phone is a low-power radio transmitter and receiver. When it is turned on, it emits low levels of radio frequency energy (also known as radio waves or radio frequency fields).

Governments around the world have adopted comprehensive international safety guidelines, developed by scientific organizations, e.g. ICNIRP (International Commission on Non-Ionizing Radiation Protection) and IEEE (The Institute of Electrical and Electronics Engineers Inc.), through periodic and thorough evaluation of scientific studies. These guidelines establish permitted levels of radio wave exposure for the general population. The levels include a safety margin designed to assure the safety of all persons, regardless of age and health, and to account for any variations in measurements.

Specific Absorption Rate (SAR) is the unit of measurement for the amount of radio frequency energy absorbed by the body when using a mobile phone. The SAR value is determined at the highest certified power level in laboratory conditions, but the actual SAR level of the mobile phone while it is operating can be well below this value. This is because the mobile phone is designed to use the minimum power required to reach the network.

Variations in SAR below the radio frequency exposure guidelines do not mean that there are variations in safety. While there may be differences in SAR levels among mobile phones, all Sony Ericsson mobile phone models are designed to meet radio frequency exposure guidelines.

For phones sold in the US, before a phone model is available for sale to the public, it must be tested and certified by the Federal Communications Commission (FCC) that it does not exceed the limit established by the government-adopted requirement for safe exposure. The tests are performed in positions and locations (that is, at the ear and worn on the body) as required by the FCC for each model. For body-worn operation, this phone has been tested and meets FCC RF exposure guidelines when the handset is positioned a minimum of 15 mm from the body without any metal parts in the vicinity of the phone or when used with the original Sony Ericsson accessory intended for this phone and worn on the body. Use of other accessories may not ensure compliance with FCC RF exposure guidelines.

A separate leaflet with SAR information about this mobile phone model is included with the material accompanying this mobile phone. This information can also be found, together with more information on radio frequency exposure and SAR, on: www.sonyericsson.com/health.

Accessible Solutions/Special Needs

For phones sold in the US, you can use your TTY terminal with your Sony Ericsson mobile phone (with the necessary accessory). For information on Accessible Solutions for individuals with special needs call the Sony Ericsson Special Needs Center on 877 878 1996 (TTY) or 877 207 2056 (voice), or visit the Sony Ericsson Special Needs Center at www.sonyericsson-snc.com.

Disposal of old electrical & electronic equipment

This symbol indicates that all electrical and electronic equipment included shall not be treated as household waste. Instead it shall be left at the appropriate collection point for recycling of electrical and electronic equipment. By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the environment and human health, which could otherwise be caused by inappropriate waste handling of this product. The recycling of materials will help to conserve natural resources. For more detailed information about recycling this product, please contact your local city office, your household waste disposal service or the shop where you purchased the product.

Disposing of the battery

Please check local regulations for disposal of batteries or call your local Sony Ericsson Call Center for information.

The battery should never be placed in municipal waste. Use a battery disposal facility if available.

Memory Card

Your product is equipped with a memory card reader. Check memory card compatibility before purchase or use.

Memory cards are generally formatted prior to shipping. To reformat the memory card, use a compatible device. Do not use the standard operating system format when formatting the memory card on a PC. For details, refer to the operating instructions of the device or contact customer support.

WARNING:

If your device requires an adapter for insertion into the handset or another device, do not insert the card directly without the required adapter.

Precautions on Memory Card Use

- Do not expose the memory card to moisture.
- Do not touch terminal connections with your hand or any metal object.
- Do not strike, bend, or drop the memory card.
- Do not attempt to disassemble or modify the memory card.
- Do not use or store the memory card in humid or corrosive locations or in excessive heat such as a closed car in summer, in direct sunlight or near a heater, etc.
- Do not press or bend the end of the memory card adapter with excessive force.
- Do not let dirt, dust, or foreign objects get into the insert port of any memory card adapter.
- Check you have inserted the memory card correctly.
- Insert the memory card as far as it will go into any memory card adapter needed. The memory card may not operate properly unless fully inserted.
- We recommend that you make a backup copy of important data. We are not responsible for any loss or damage to content you store on the memory card.
- Recorded data may be damaged or lost when you remove the memory card or memory card adapter, turn off the power while formatting, reading or writing data, or use the memory card in locations subject to static electricity or high electrical field emissions.

Protection of personal information

To safeguard your privacy and prevent information being accessible to a third party, you should erase all personal data before selling or disposing of the product. To delete personal data, perform a master reset and remove the memory card. DELETION OF MATERIAL FROM THE PHONE MEMORY DOES

NOT ENSURE THAT SAID INFORMATION CANNOT BE RECOVERED BY A SUBSEQUENT USER. SONY ERICSSON DOES NOT WARRANT AGAINST A SUBSEQUENT USER OF THE DEVICE ACCESSING YOUR INFORMATION AND DOES NOT ASSUME ANY RESPONSIBILITY FOR SUBSEQUENT DISCLOSURE OF SAID INFORMATION EVEN IF A MASTER RESET HAS BEEN PERFORMED. If you are concerned about such potential disclosure retain your device or secure its permanent destruction.

Accessories

Sony Ericsson recommends use of Sony Ericsson original accessories for safe and efficient use of its products. Use of third-party accessories may decrease performance or pose a risk to your health or safety.

LOUDNESS WARNING:

Please adjust the audio volume cautiously when using third-party audio accessories to avoid volume levels that may be harmful to your hearing. Sony Ericsson does not test use of third-party audio accessories with this mobile phone. Sony Ericsson recommends using only Sony Ericsson original audio accessories.

End User Licence Agreement

This wireless device, including without limitation any media delivered with the device, (“Device”) contains software owned by Sony Ericsson Mobile Communications AB and its affiliated companies (“Sony Ericsson”) and its third party suppliers and licensors (“Software”).

As user of this Device, Sony Ericsson grants you a non-exclusive, non-transferable, non-assignable licence to use the Software solely in conjunction with the Device on which it is installed and/or delivered with. Nothing herein shall be construed as a sale of the Software to a user of this Device.

You shall not reproduce, modify, distribute, reverse engineer, decompile, otherwise alter or use any other means to discover the source code of the Software or any component of the Software. For avoidance of doubt, you are at all times entitled to transfer all rights and obligations to the Software to a third party, solely together with the Device with which you received the Software, provided always that such third party agrees in writing to be bound by these rules.

You are granted this licence for a term of the useful life of this Device. You can terminate this licence by transferring all your rights to the Device on which you have received the Software to a third party in writing. If you fail to comply with any of the terms and conditions set out in this licence, it will terminate with immediate effect.

Sony Ericsson and its third party suppliers and licensors are the sole and exclusive owner of and retain all rights, title and interest in and to the Software. Sony Ericsson, and, to the extent that the Software contains material or code of a third party, such third party, shall be entitled third party beneficiaries of these terms.

The validity, construction and performance of this licence shall be governed by the laws of Sweden. The foregoing shall apply to the full extent permitted by, when applicable, statutory consumer rights.

Limited Warranty

Sony Ericsson Mobile Communications AB, SE-221 88 Lund, Sweden, (Sony Ericsson) or its local affiliated company, provides this Limited Warranty for your mobile phone and original accessory delivered with your mobile phone (hereinafter referred to as “Product”).

Should your Product need warranty service, please return it to the dealer from whom it was purchased, or contact your local Sony Ericsson Call Center (national rates may apply) or visit *www.sonyericsson.com* for further information.

This is the Internet version of the User's guide. © Print only for private use.

OUR WARRANTY

Subject to the conditions of this Limited Warranty, Sony Ericsson warrants this Product to be free from defects in design, material and workmanship at the time of its original purchase by a consumer. This Limited Warranty will last for a period of two (2) years as from the original date of purchase of the Product for your mobile phone, and for a period of one (1) year following the original purchase date of the Product for all original accessories (such as the battery, charger or handsfree kit) which may be delivered with your mobile phone.

WHAT WE WILL DO

If, during the warranty period, this Product fails to operate under normal use and service, due to defects in design, materials or workmanship, Sony Ericsson authorized distributors or service partners, in the country/region* where you purchased the Product, will, at their option, either repair or replace the Product in accordance with the terms and conditions stipulated herein.

Sony Ericsson and its service partners reserve the right to charge a handling fee if a returned Product is found not to be under warranty according to the conditions below.

Please note that some of your personal settings, downloads and other information may be lost when your Sony Ericsson Product is repaired or replaced. At present Sony Ericsson may be prevented by applicable law, other regulations or technical restrictions from making a backup copy of certain downloads. Sony Ericsson does not take any responsibility for any lost information of any kind and will not reimburse you for any such loss. You should always make backup copies of all the information stored on your Sony Ericsson Product such as downloads, calendar and contacts before handing in your Sony Ericsson Product for repair or replacement.

CONDITIONS

1. This Limited Warranty is valid only if the original proof of purchase for this Product issued by a Sony Ericsson authorized dealer specifying the date of purchase and serial number**, is presented with the Product to be repaired or replaced. Sony Ericsson reserves the right to refuse warranty service if this information has been removed or changed after the original purchase of the Product from the dealer.
2. If Sony Ericsson repairs or replaces the Product, the repair for the defect concerned, or the replaced Product shall be warranted for the remaining time of the original warranty period or for ninety (90) days from the date of repair, whichever is longer. Repair or replacement may involve the use of functionally equivalent reconditioned units. Replaced parts or components will become the property of Sony Ericsson.
3. This warranty does not cover any failure of the Product due to normal tear and wear, or due to misuse, including but not limited to use in other than the normal and customary manner, in accordance with the Sony Ericsson instructions for use and maintenance of the Product. Nor does this warranty cover any failure of the Product due to accident, software or hardware modification or adjustment, acts of God or damage resulting from liquid.

   A rechargeable battery can be charged and discharged more than a hundred times. However, it will eventually wear out – this is not a defect and corresponds to normal wear and tear. When the talk time or standby time is noticeably shorter, it is time to replace your battery. Sony Ericsson recommends that you use only batteries and chargers approved by Sony Ericsson.

Minor variations in display brightness and color may occur between the phones. There may be small, bright or dark dots on the display. These are called defective pixels and occur when individual dots have malfunctioned and cannot be adjusted. Two defective pixels are deemed acceptable.

Minor variations in camera image appearance may occur between phones. This is not uncommon and is not regarded as a defective camera module.

4 Since the cellular system on which the Product is to operate is provided by a carrier independent from Sony Ericsson, Sony Ericsson will not be responsible for the operation, availability, coverage, services or range of that system.

5 This warranty does not cover Product failures caused by installations, modifications, or repair or opening of the Product performed by a non-Sony Ericsson authorised person.

6 The warranty does not cover Product failures which have been caused by use of accessories or other peripheral devices which are not Sony Ericsson branded original accessories intended for use with the Product.

Sony Ericsson disclaims any and all warranties, whether express or implied, for failures caused to the Product or peripheral devices as a result of viruses, trojans horses, spyware, or other malicious software. Sony Ericsson strongly recommends that you install appropriate virus protection software on your Product and any peripheral devices connected to it, as available, and update it regularly, to better protect your device. It is understood, however, that such software will never fully protect your Product or its peripheral devices and Sony Ericsson disclaims all warranties, whether express or implied, in case of failure by such antivirus software to fulfill its intended purpose.

7 Tampering with any of the seals on the Product will void the warranty.

8 THERE ARE NO EXPRESS WARRANTIES, WHETHER WRITTEN OR ORAL, OTHER THAN THIS PRINTED LIMITED WARRANTY. ALL IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE DURATION OF THIS LIMITED WARRANTY. IN NO EVENT SHALL SONY ERICSSON OR ITS LICENSORS BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES OF ANY NATURE WHATSOEVER, INCLUDING BUT NOT LIMITED TO LOST PROFITS OR COMMERCIAL LOSS; TO THE FULL EXTENT THOSE DAMAGES CAN BE DISCLAIMED BY LAW.

Some countries/states do not allow the exclusion or limitation of incidental or consequential damages, or limitation of the duration of implied warranties, so the preceding limitations or exclusions may not apply to you.

The warranty provided does not affect the consumer’s statutory rights under applicable legislation in force, nor the consumer’s rights against the dealer arising from their sales / purchase contract.

* GEOGRAPHICAL SCOPE OF THE WARRANTY

If you have purchased your Product in a country member of the European Economic Area (EEA) or in Switzerland or the Republic of Turkey, and such Product was intended for sale in the EEA or in Switzerland or in Turkey, you can have your Product serviced in any EEA country or in Switzerland or in Turkey, under the warranty conditions prevailing in the country in which you require servicing of the Product, provided that an identical Product is sold in such country by an authorised Sony Ericsson distributor. To find out if your Product is sold in the country you are in, please call the local Sony Ericsson Call Center.

This is the Internet version of the User's guide. © Print only for private use.

Please observe that certain services may not be possible elsewhere than in the country of original purchase due, for example, to the fact that your Product may have an interior or exterior which is different from equivalent models sold in other countries. In addition, please note that it may sometimes not be possible to repair SIM-locked Products.

** In some countries/regions additional information (such as a valid warranty card) may be requested.

FCC statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.
